Matrox Radient eV-CXP PC Compatibility List December 12, 2013

This list identifies the platforms (systems, motherboards and industrial computers) certified by Matrox Imaging to be compatible with the Matrox Radient eV-CXP frame grabber board. Please refer to the manufacturer's website for detailed specifications of each platform. Compatibility is defined as the general ability of the Matrox Radient eV-CXP to properly function on the specified platform. It does not necessarily take into account interaction with other expansion peripherals. Therefore, customers should perform testing based on their applications' specific needs. Compatibility is not limited to the platforms listed below. Other platforms with similar characteristics may also be compatible. Please contact Matrox Imaging Technical Support for details on compatibility with specific platforms.
